Becoming a Host Family

Home stay accommodation is not the same as staying in a guest house or in a hotel. It is a stay with a friendly, welcoming family where students are treated as members of the family and have the opportunity to speak English and interact.

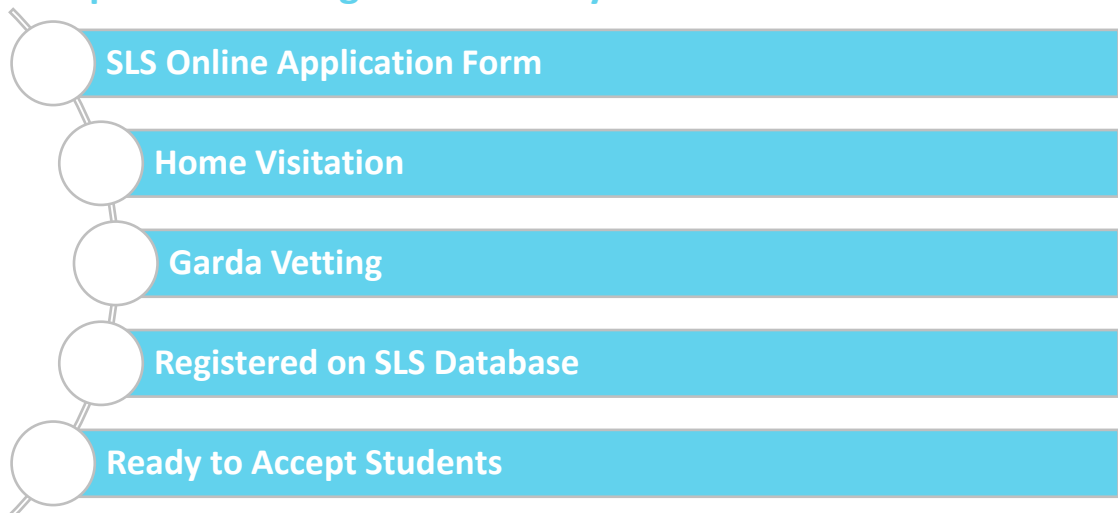

Each host family will have their own house rules which should include information on the use of the kitchen, bathroom, laundry, etc. Please ensure that your students are clear on these at the beginning of their stay. Students should join in family life as much as possible and behave with respect and courtesy to the host family at all times.

It is strict policy that all families are visited by an Accommodations Officer (Dublin) or a Student Coordinator. Visits will be pre-arranged and our Accommodations Officer / Student Coordinator will need to see the common rooms of the house and student bedrooms. They will also talk to you for a period of time about hosting. This is an opportunity for you to ask any questions or address concerns you may have about hosting students.

We promise our students clean, comfortable homes in a family atmosphere, where they will be provided with a good standard of hospitality. This is what SLS will want assurance of when we come to visit you.

A good general guideline for all families is to imagine how you would like your child to be treated if they went to live with a family abroad.

5 Steps to Becoming a Host Family

SLS may need to schedule re-visitations on an ongoing basis. SLS will arrange this at a suitable time.

General Information & Host Family Expectations

SLS would like to welcome you as a host family and we hope you enjoy the experience of hosting our students in your home. SLS have welcomed students from all over the world for many years and great relationships and friendships have been developed. It is important to SLS that we find suitable and compatible relationships between students and families to ensure the experience of hosting is beneficial to all involved.

Every academic year student is assigned a Student Coordinator to assist the student and the host family. Student Coordinators will visit host families to introduce themselves and develop a relationship to assist and support the family.

SLS students are required to give feedback on their experiences in Ireland, in schools and their host families. We would also love to hear your experiences.

Unless requested by the student, there can be no more than one student from the one mother tongue in the host family. SLS will do its best to provide our host families with students. Any family accommodating students outside of SLS must give reasonable notice to avoid doubling up on any nationality.

Responsibilities of the Host Family

General

- ✓ SLS must be informed if the family will not be at home any evening or be away for the night. Under no circumstances should a student be left to look after themselves, regardless of the freedoms they have in their own country. This is in order to protect the student, the family and the family home.
- ✓ Students must return home every night unless SLS has informed you otherwise.
- ✓ The host family should treat the student as they would their own children regarding house / family rules and discipline and ensure that the student is aware of, and understands this.
- ✓ If a student asks for a sleepover, either in your family or another family, this must be firstly agreed with by the Student Coordinator and then by both families.
- ✓ If a student asks to go to a party / club etc. please discuss with your student coordinator.
- ✓ Access to a house key and alarm codes should be the same as host family children's rules.
- ✓ It is up to the host family whether they give students under 18 a key. Students over 18 years of age should receive a key and house alarm codes if necessary.

Academic Year Students

- ✓ The host family should bring the student to school on the first morning and give clear directions for getting to and from school, including details for public transport.
- ✓ Ensure the student attends school, punctually and in full uniform (if applicable), on a daily basis. If the student is unwell please contact the school and notify the Student Coordinator.
- ✓ Ensure homework is done and encourage the student to study.
- ✓ Please ensure you exchange contact phone numbers between yourself, your student and their Student Coordinator.
- ✓ Check the student's school journal regularly for teacher's comments and notify coordinator of any concerns you may have regarding how the student is settling into school academically and socially.
- ✓ On school nights, students should remain in the host family home, or close vicinity unless partaking in extra-curricular activities.

Arrival / Departure

➔ Upon arrival / departure to / from the airport, students will be collected / dropped off by a member of their host family at a designated meeting point. Should a family not be able to do this they should make alternative arrangements and are responsible for any costs / expenses involved. Meeting points and times will be given in advance of the student's arrival / departure.

➔ Students are not allowed to travel unaccompanied in a taxi.

➔ It is the responsibility of the host family to monitor arrival flights. Families will not be phoned if a flight arrives early or late.

➔ Arrival / Departure and collection / drop off details may change from time to time. In the event of this happening SLS will contact you.

➔ Families should not make any direct arrangements with students or their families in respect of airport transfers as you may be responsible for expenses incurred because of check-in issues, delays or missed flights.

- 🕒 Any outgoing calls or related expenses must be paid directly to the family by the student before they leave as SLS will not be responsible for collecting / reimbursing outstanding charges.

- 🕒 If a student wants to make several outgoing calls we recommend they buy a prepaid telephone card or Irish SIM card.

Traveling to / from

- 🚌 Students walk, use public transport or take a private bus to school and / or activities.

- 🚌 Families are expected to help students find their way on the first day.

Medical Emergencies

- + SLS should be informed of any medical or other incidents immediately. If outside of office hours please call your Student Coordinator or our Accommodations Officer.
- + Host families should deal with any emergencies in the same way they would with a member of their own family. This may require phoning the police, ambulance or doctor etc.
- + Should your student be ill and appear to need the attention of a doctor, please do not hesitate to contact your family doctor and at the same time inform SLS.

- + All medical costs and associated costs are covered by the students' insurance policy. If a host family pays for any medication / visits to doctors they should keep all receipts and will be reimbursed by SLS.
- + Please ensure you obtain a receipt and a doctor / hospital medical report to ensure we can refund you. The report is to say the doctor has seen the patient and what they diagnosed. This is very important and please do not leave the surgery / clinic / hospital without it or the money will not be refunded. Medical insurance companies may not refund the costs on receipts alone and may require reports.
- + EU students should have their European Health Insurance Card (E111) with them.
- + Non EU students will have private medical insurance.

Covid – 19 Protocols

Host Family Contingency Plan

The host family should be happy to keep the student under their care in their home should they themselves, any family members or the student present with symptoms of Covid-19, or subsequently test positive for Covid-19. The host family should follow HSE and government advice for themselves and other family members and specifically follow the advice below in relation to SLS Ireland students.

SLS Ireland at all times will follow the most up to date advice from both Government and Health Service Executive.

As this advice is constantly changing please see below links for the most up to date public health advice:

HSE: [COVID-19 \(coronavirus\) - HSE.ie](https://www.hse.ie/eng/covid19/)

GOV: [gov.ie - Public health advice in place right now \(www.gov.ie\)](https://www.gov.ie/en/public-health-advice-in-place-right-now/)

DFA: [General COVID-19 Travel Advisory - Department of Foreign Affairs \(dfa.ie\)](https://www.dfa.ie/travel-advisory/covid-19/)

Should a student in your care receive a positive covid test result, we would ask that the student is isolated in their bedroom in line with HSE advice. SLS will be there to support both you and the student during this time.

Should a student need to stay longer in Ireland due to a positive covid test result before travel, families will be paid up to the day the student leaves their house.
